PART ONE

Getting Started

Essential guide for all staff — login, navigation, and first steps in the Hsquareliving platform.

All Roles

1.1 What Is Hsquareliving

Hsquareliving is a full-stack property and student accommodation management platform built for Hsquareliving Pvt Ltd. It manages the entire lifecycle from property discovery and room booking through payment collection, digital agreement signing, and ongoing resident management.

The platform has two major portals:

- Hostel Portal — the primary admin, sales, and student-facing product accessible at hsquare.in
- Hotels Portal — a luxury guest experience under `/hotels/*` for managing hotel-category properties

INFO

You are reading the staff manual. Students and guests interact with a separate booking flow and do not have access to the admin panel.

1.2 Supported Devices & Browsers

The platform is optimised for desktop and tablet use in the admin panel. For the best experience:

- Use Google Chrome or Safari (latest version)
- Minimum screen width: 768px (iPad or wider)
- JavaScript must be enabled

TIP

On iPad, tap any number input (e.g. Deposit Amount) and the action button will automatically scroll into view when the keyboard opens.

1.3 Logging In

All Roles

Open hsquare.in/admin/login in your browser. Enter your username or email and password, then press Sign In.

1

Open the Login Page

Navigate to <https://hsquare.in/admin/login>

2

Enter Credentials

Type your email address (or username) and password into the respective fields.

3

Sign In

Click the Sign In button. You will be redirected based on your assigned role (see table below).

4

Property Selector

If you manage multiple properties, choose your working property from the dropdown in the top navbar at any time.

Role-Based Redirects After Login

Superadmin	Admin Dashboard (/admin)
Admin	Admin Dashboard (/admin)
Manager	Admin Dashboard (/admin)

Staff	Admin Dashboard (/admin)
Sales Executive	Sales Dashboard (/sales)
Frontdesk	All Bookings (/admin/bookings/completed)
Hotel Admin	Hotels Dashboard (/hotels/dashboard)
Hotel Staff	Hotels Dashboard — Shift View (/hotels/dashboard)

WARNING

If you see a blank screen after login, contact your Superadmin — your account may not have a property assignment yet.

1.4 Navigating the Dashboard

The left sidebar (Admin Layout) contains all navigation links grouped by area. Click any item to navigate. Use the top navbar property selector to switch between properties you are assigned to.

- Dashboard — KPI overview for your selected property
- Requests — Kanban board for booking/registration requests
- Registrations — pre-registration applications from the /apply page
- Bookings ! All Bookings — complete booking management panel
- Leads — student lead pipeline (Sales Executive and Admin)
- Sales Management — staff assignment, targets, frontend users
- Floors & Beds — room and bed inventory
- Settings — system configuration (Superadmin)

TIP

The sidebar can be collapsed by clicking the 'Collapse' button at the bottom. This gives more horizontal space on tablets.

1.5 Your Profile & Password

All Roles

1

Open Profile

Click your avatar (top-right) and select Profile, or navigate to /profile.

2

Update Information

Edit your name, phone, or profile photo and click Save.

3

Change Password

Scroll to the Change Password section, enter your current password, then the new one twice, and click Update Password.

TIP

Use a strong password (minimum 8 characters mixing letters, numbers, and symbols). Passwords are never stored in plain text.

PART TWO

Admin & Superadmin Guide

Complete reference for managing properties, bookings, students, payments, seasons, HMS sync, settings, users, and data export.

Superadmin

Admin

Manager

2.1 Dashboard Overview

Superadmin

Admin

Manager

The Admin Dashboard at /admin shows live KPI cards and a summary of activity across your selected property. Key metrics displayed:

- Total Bookings — count and total booking value
- Active Residents — currently checked-in students
- Pending Payments — outstanding amount due
- New Leads (7 days) — recent lead activity
- Registration Requests — pending pre-registrations

INFO

All stats are scoped to the property you selected in the navbar dropdown. Switch properties to see data for other locations.

2.2 Property Management

Superadmin

Admin

Adding a New Property

1

Navigate

Go to Admin !' Add Property.

2

Fill Details

Enter the property name, address, description, location pin, category (hostel/hotel), and upload photos.

3

Set Capacity

Define total beds. Floors and individual beds are configured separately in Floors & Beds.

4

Save

Click Create Property. The new property is immediately available in the navbar selector.

Editing an Existing Property

Navigate to Add Property, then use the property selector to load an existing property and modify its fields. Changes take effect immediately.

TIP

The property slug (used in public URLs and SEO) is auto-generated from the name. Contact your Superadmin if you need to change a slug.

Virtual Tour & Photos

Go to Admin !' Tour Images to upload floor-by-floor tour photos. Go to Admin !' 3 virtual tour URL and embed code. These appear on the public property page for prospective students.

2.3 Floors & Bed Management

Superadmin

Admin

Manager

Navigate to Admin > Floors & Beds. This is where you set up the complete room

1

Create Floors

Click Add Floor, enter the floor name (e.g. Ground Floor, Floor 1), and set gender restriction (Male / Female / Mixed).

2

Add Rooms / Sections

Within each floor, add room sections with a name and optional pricing override.

3

Add Beds

Within each room, add individual beds. Each bed has a bed number, status, and optional per-bed price override.

4

Check the Tree View

Use Admin > Booking Tree for a visual hierarchy of all floors > rooms > beds and

WARNING

Do not delete a bed that is currently allocated to an active booking. Reassign or cancel the booking first.

2.4 All Bookings — Main Panel

Superadmin

Admin

Manager

Frontdesk

Navigate to Admin > Bookings > All Bookings (or /admin/bookings/completed). The booking in the system.

Finding a Booking

- Use the search bar to find by name, booking code, phone, or email.
- Use All Status and All Bookings filters to narrow by status or booking type.
- Sort by Date or Amount using the Sort buttons.
- Click a row to open the full booking detail panel on the right.

Booking Detail Panel — Overview

Clicking a booking row opens the full detail panel. This panel is divided into sections accessed by the sidebar anchors: Resident, Property, Payments, Security Deposit, Agreement, Add-ons, and (if applicable) Package.

Editing a Booking

1

Open Booking

Click the booking row to open its detail panel.

2

Click Edit

Click the Edit Booking button in the top-right of the detail panel.

3

Make Changes

Update any fields — resident info, room assignment, dates, package.

4

Save

Click Save Changes. An audit log entry is created automatically.

%T TIP

The Edit form supports full resident information including emergency contact, college, course year, and ID proof upload.

2.5 Recording Payments & EMI Instalments

Superadmin

Admin

Manager

Frontdesk

The Payments section of the booking detail panel shows all payment instalments, their due dates, amounts, and collection status.

Marking an Instalment as Paid

1

Open Booking Detail

Click the booking in All Bookings to open its panel.

2

Scroll to Payments

Click the Payments anchor in the left sidebar of the detail panel, or scroll down to the Payments section.

3

Click Pay on an Instalment

Each unpaid instalment has a green Pay button. Click it to open the Mark Payment Done dialog.

4

Enter Payment Details

Select Payment Method (Cash / UPI / Bank Transfer / Cheque / Card). For non-cash methods, enter the Transaction ID / UTR. Upload a payment screenshot or receipt photo.

5

Confirm

Click Confirm Payment. The instalment is marked paid and payment history is updated.

%T TIP

On iPad, tap the Amount field — the Confirm Payment button will automatically scroll into view above the keyboard.

%T WARNING

Cash payments require a photo of the cash receipt. The Confirm Payment button will remain disabled until a receipt photo is uploaded.

%T INFO

The 'Paid in Last Year' option records a deposit carried forward from the previous academic year — no fresh payment required.

2.6 Security Deposit Management

Superadmin

Admin

Manager

The Security Deposit (SD) section manages collection and eventual refund of the security deposit for each booking.

Recording a Security Deposit

- 1 Open Booking!' Security Deposit section**
Scroll to the Security Deposit card in the booking detail panel.
- 2 Choose Deposit Type**
Select Collected, Waived, or Paid in Last Year.
- 3 Enter Amount**
Type the deposit amount in rupees.
- 4 Upload Proof (optional)**
Attach a payment screenshot or receipt.
- 5 Click Mark Security Deposit as Received**
The deposit status updates immediately.

TIP

If the student's deposit was waived (e.g. scholarship or special arrangement), select 'Waived' as the deposit type. No amount entry is required.

Confirming a Pending Deposit (HMS flow)

If the booking was synced from HMS and shows a pending deposit confirmation prompt, use the Confirm Receipt workflow: select the deposit method, optionally enter the UTR reference, and click Confirm Receipt.

Processing a Refund

- 1 Open the Security Deposit card**
Look for the Process Refund button (visible after the deposit is marked received).
- 2 Enter Refund Details**
Specify the refund date, amount, method, and any notes.
- 3 Confirm**
Click Record Refund. A refund entry is created in the payment history.

2.7 Digital Agreement Signing

Superadmin

Admin

Manager

The Agreement section of the booking detail panel manages the tenancy agreement.

- Upload Agreement — attach a signed PDF agreement document.
- Generate Agreement — auto-generate a standard agreement from the booking data.
- Student Signature — capture or upload the student's digital signature.
- View Signed Agreement — download or preview the complete signed agreement.

NOTE

Students can also sign agreements themselves via the public booking flow. Admin upload is available for in-person or paper-first signings.

2.8 Package Upgrades

Superadmin

Admin

A booking's housing plan (package) can be upgraded post-check-in from the Package section of the booking detail.

1

Open Package section

Scroll to the Package card in the booking detail panel.

2

View Available Upgrades

Available upgrade packages are listed with the price difference.

3

Select & Confirm

Choose the new package and click Upgrade. A pro-rated price adjustment entry is created.

⚠ WARNING

Package downgrades are not supported. Contact Superadmin for exceptional cases requiring a manual adjustment.

2.9 Housing Plans & Packages

Superadmin

Admin

Go to Admin! Packages to manage available housing plans for each property. E

- Plan name and description
- Duration (days / months)
- Price and instalment schedule
- Included amenities and services

Packages can be marked Active or Inactive. Only active packages appear in the booking generation flow.

2.10 Coupon & Discount Management

Superadmin

Admin

Go to Admin! Coupons to create promotional discount codes that students can a

- Fixed Amount — e.g. ₹2,000 off
- Percentage — e.g. 10% off
- Set usage limit and expiry date per coupon
- Track redemption count in the coupon list

2.11 Season / Batch CRM

Superadmin

Admin

Manager

Navigate to Admin! Seasons. This module manages academic batches (seasons) each season.

1

Create a Season

Click New Season. Enter name (e.g. AY 2025-26), start date, end date, and the associated property.

2

Assign Students

From the season detail page, assign active bookings/residents to this season.

3

Track Status

The season dashboard shows how many residents are Active, Checked Out, or Transferred.

4

Close a Season

Mark the season as Completed at the end of the academic year.

2.12 HMS Sync

Superadmin

Admin

The Hostel Management System (HMS) Sync keeps Hsquareliving in sync with the external HMS. Navigate to Admin !' HMS Sync.

Triggering a Sync

1

Navigate to HMS Sync

Go to Admin !' HMS Sync.

2

Select Sync Type

Choose Full Sync (all data) or Delta Sync (changes since last sync).

3

Start Sync

Click Sync Now. A progress indicator shows sync status.

4

Review Results

The sync result panel shows added, updated, and skipped records.

TIP

Run HMS Sync at least once per day during active booking periods to keep data current between systems.

HMS Health Check

Go to Admin !' HMS Health to verify that the HMS API connection is live. The health check shows the last sync timestamp, and any error details.

WARNING

If HMS Health shows a red status, booking data may be out of sync. Contact the system administrator immediately.

2.13 Settings

Superadmin

Go to Admin !' Settings. This section is restricted to Superadmin users.

- General — site name, contact email, address, business details

- Hotels Module — toggle the Hotels portal on/off for public visitors (Hotels public flag)
- Logo — upload and manage the site logo (displayed in the navbar and PDF exports)
- Hero Slides — manage the homepage hero carousel images and copy
- Footer — edit footer links, social media URLs, and contact info
- Map — update the embedded map design and location pin

⚠ WARNING

The Hotels Module toggle controls public visibility. When OFF, only hotel_admin and hotel_staff can see the Hotels portal — public visitors see a Coming Soon page.

2.14 User Management

Superadmin

Admin

Navigate to Admin! Users to create and manage staff accounts.

Creating a New User

1

Click Add User

Click the New User button.

2

Fill Details

Enter name, email, phone, and assign a role.

3

Assign Properties

Select which properties this user can access.

4

Set Initial Password

Set an initial password. The user should change it on first login.

5

Save

Click Create. The user can now log in.

ℹ INFO

Approval Access is a special flag for Frontdesk users. When enabled, the Frontdesk user can approve registration requests for their assigned properties.

Roles Reference

superadmin	Full access to all settings, users, and all properties.
admin	Full booking and property access, cannot manage other superadmins.
manager	Booking and reporting access, no settings or user management.
staff	Limited operational access.
sales_executive	Lead management, sales dashboard, scoped to assigned properties.
frontdesk	Booking view and registration approval, scoped to assigned properties.

hotel_admin	Full access to Hotels dashboard and housekeeping management.
hotel_staff	Personal shift view in Hotels dashboard, own housekeeping tasks only.

2.15 Activity Logs

[Superadmin](#) [Admin](#)

Go to Admin!' Activity Logs. Every significant action — booking edits, payment r recorded with the actor's name, timestamp, and a description. Use the date filter and search to find specific entries.

TIP

Activity logs cannot be deleted or modified. They are your audit trail and are essential for dispute resolution.

2.16 Data Export

[Superadmin](#) [Admin](#) [Manager](#)

Go to Admin!' Data Export. Export booking, payment, student, or lead data as C

- Choose the data type and date range
- Apply optional filters (property, status, season)
- Click Export CSV or Export Excel

Downloaded files are compatible with Google Sheets, Microsoft Excel, and any standard spreadsheet application.

2.17 Gyan AI Chatbot

[Superadmin](#) [Admin](#)

Go to Admin!' AI Chatbot to configure the Gyan chatbot that appears on the pub

- Enable or disable the chatbot widget
- Set the chatbot's greeting message and persona name
- View recent conversation logs

Gyan uses OpenAI GPT-4o-mini and has live access to property and pricing data so it can answer student queries accurately.

NOTE

Chatbot conversations are not stored permanently. Logs are retained for 30 days for moderation purposes.

PART THREE

Sales Executive Guide

Lead management, pipeline tracking, activity logging, follow-up scheduling, and the Kanban Requests Board for Sales Executives.

Sales Executive

Admin

3.1 Sales Dashboard

Sales Executive

Admin

After login, Sales Executives land on the Sales Dashboard (/sales). This overview shows:

- Your assigned leads and their pipeline stage
- Today's follow-ups and overdue items
- Recent activity feed
- Target vs. actual booking conversion rate

% $\uparrow$ INFO

Sales Executives only see leads and bookings for their assigned properties. If a property is missing, contact your Admin to update your assignment.

3.2 Lead Management

Adding a New Lead

1

Navigate to Leads

Go to Leads in the sidebar (or /admin/leads from the Sales Dashboard).

2

Click New Lead

Click the Add Lead button.

3

Fill Lead Details

Enter the student's name, phone, email, source (Walk-in / Website / Referral / Social Media / Other), college, and interest notes.

4

Assign Property

Select the property the lead is interested in.

5

Save

Click Create Lead. The lead appears in your pipeline with status New.

Lead Stages & Pipeline

- New
- Contacted
- Site Visit Scheduled
- Site Visit Done
- Proposal Sent
- Negotiation
- Won
- Lost

Drag-and-drop leads between stages on the Kanban view, or update the stage from the lead detail panel.

Lead Scoring

Each lead has an automated score (0–100) based on engagement signals: phone verified, email replied, site visit completed, proposal viewed. Higher scores indicate higher conversion likelihood. Use the score to prioritise your follow-up queue.

3.3 Kanban Requests Board

Sales Executive

Admin

Frontdesk

Navigate to Requests (or /admin/requests). This Kanban board shows all registration requests and booking enquiries, grouped by stage.

1

View Cards

Each card shows student name, contact, interested property, and current stage.

2

Move Cards

Drag a card to a new column to update its stage.

3

Open Detail

Click a card to see full details, add notes, or trigger the booking generation flow.

4

Filter

Use the property and stage filters at the top to focus on your queue.

3.4 Logging Activities & Follow-ups

From any lead's detail panel, click Log Activity to record a touchpoint.

- Activity Types: Call, Email, WhatsApp, Site Visit, Meeting, Other
- Enter outcome notes and whether the lead was responsive
- Set a Follow-up Date to schedule the next touchpoint

Leads with overdue follow-ups appear highlighted in red on the Sales Dashboard.

3.5 Calendar Subscription (iCal)

Your follow-up schedule is available as a live calendar feed. In your Sales Dashboard, click Subscribe to Calendar to get a personal iCal URL. Add this URL to Google Calendar, Apple Calendar, or Outlook to see your follow-ups alongside your other meetings.

TIP

The iCal feed updates automatically when you add or modify follow-ups. No manual sync needed.

3.6 Email Reminders

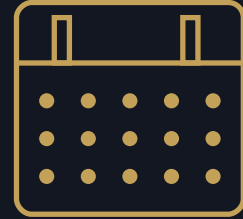

When you schedule a follow-up, an automated reminder email is sent to your registered email address 1 hour before the follow-up time. You can also receive a daily digest of today's follow-ups at 8:00 AM.

NOTE

Email reminders require your email address to be correctly set in your profile. Check and confirm.

PART FOUR

Frontdesk Guide

Registration approval, visitor management, booking quick-reference, and scoped property access for Frontdesk staff.

Frontdesk

Admin

4.1 Frontdesk Overview

Frontdesk

Frontdesk users have a focused view of the platform scoped to their assigned properties. After login, they land directly on the All Bookings page. They can view bookings, approve registrations, and manage visitor logins.

INFO

Frontdesk users cannot create new users, access Settings, or modify system configuration. If you need any of these, ask your Admin.

4.2 Reviewing Registration Requests

New students can pre-register via the public /apply form. These registrations appear in the Frontdesk interface as follows:

1

Open Registrations

Go to Registrations in the sidebar.

2

Review Application

Click a registration to see the student's details, college, requested room type, and move-in date.

3

Approve or Reject

Click Approve to move the student to the booking generation queue, or Reject with a reason.

4

Notify Student

An automatic email is sent to the student upon approval or rejection.

TIP

If Approval Access is enabled for your account (by your Admin), you can approve registrations. If the Approve button is greyed out, contact your Admin to enable this flag for your account.

4.3 Visitor Login Management

The Visitor Login feature lets guests check in temporarily via the /visitor-login page. From the Visitor Login section, Frontdesk can:

- See active visitor sessions
- Manually check in a visitor
- End a visitor session

NOTE

Visitor logins are separate from student bookings and are not recorded in the main booking system.

4.4 Booking Quick-Reference

Frontdesk users have read-only access to the All Bookings panel with the ability to record payments (if permitted by their Admin). Key tasks:

- Find a student by name, phone, or booking code using the search bar

- View booking details, room assignment, and payment status
- Record a payment if the Mark Payment Done button is visible
- Print or download the agreement from the Agreement section

⚠ WARNING

Frontdesk users cannot delete bookings, change room assignments, or modify agreements. These actions require Admin access.

4.5 Scoped Property Visibility

You will only see bookings, leads, and registrations for the properties assigned to your account. If a student tells you they have a booking but it's not visible, their booking may be under a different property. Ask your Admin to check all properties.

PART FIVE

Hotel Admin & Staff Guide

Managing the Hotels portal — dashboard overview, bookings, rooms, housekeeping tasks, and staff shift view.

Hotel Admin

Hotel Staff

5.1 Accessing the Hotels Portal

Hotel Admin

Hotel Staff

Hotel-role users are redirected automatically to /hotels/dashboard on login. You can also navigate to it from the main app navbar using the gold 'Switch to Hotels!' pill, or from the Hotels navbar using the gold 'Hotels' pill.

INFO

The Hotels portal has its own luxury design and three themes: Dark (default), Light, and Studio. Toggle themes using the Sun/Moon/Sparkles pill in the Hotels navbar. Your preference is saved automatically.

5.2 Hotels Dashboard — Admin View

Hotel Admin

Admin

Superadmin

The Hotels Dashboard (/hotels/dashboard) has four tabs:

- Overview — stat cards: today's check-ins, occupancy %, 30-day revenue, pending housekeeping tasks
- Bookings — all hotel bookings with status and guest details
- Rooms — room type inventory and availability
- Housekeeping — task management board

Stat Cards

The four overview stat cards update in real time:

- Today's Check-ins — guests with a check-in date of today
- Occupancy % — occupied beds as a percentage of total hotel beds
- 30-Day Revenue — payments received in the last 30 days from hotel-category properties
- Pending Housekeeping — tasks not yet marked Complete

5.3 Managing Housekeeping Tasks

Hotel Admin

Admin

Creating a Task

1

Open Housekeeping Tab

Click the Housekeeping tab on the Hotels Dashboard.

2

Click New Task

Click the New Task button (top right).

3

Fill Task Details

Enter title, task type (Cleaning / Linen Change / Maintenance / Inspection / Other), priority (Low / Normal / High / Urgent), the assigned staff member, and an optional due date/notes.

4

Save

Click Create Task. The task appears in the list and is immediately visible to the assigned staff member.

Updating Task Status

Hotel Admin (and the assigned staff member) can update task status from Pending to In Progress, Complete, or Cancelled.

the task row to edit its status and add completion notes.

%T TIP

Mark tasks as In Progress when a staff member starts working on a room, and Completed as soon as they finish. This keeps the Pending Housekeeping count on the Overview accurate.

Filtering & Searching Tasks

- Filter by status, type, or priority using the dropdowns
- Search by room number or task title
- Sort by due date or priority

5.4 Hotel Staff — Shift View

Hotel Staff

Hotel Staff users see a simplified shift view that shows only tasks assigned to them and their own check-in/check-out counts for the day. This view is intentionally limited to reduce distraction and ensure staff focus on their specific duties.

- My Tasks — tasks assigned to you, ordered by priority then due time
- Today's Count — number of check-ins/check-outs you have managed today

%T NOTE

You cannot create tasks or view other staff members' tasks. If you believe a task is missing or incorrectly assigned, contact your Hotel Admin.

5.5 Hotels Portal — Rooms & Booking Flow

Hotel Admin

Superadmin

The Hotels portal reuses the hostel system's properties (filtered by category='hotel'), room types, bookings, and payments tables — there are no duplicate entities.

The public booking flow for hotel guests:

1

Guest browses /hotels/rooms

Filterable grid of hotel-category properties.

2

Guest visits /hotels/rooms/:slug

Property detail with selectable room types and a Reserve CTA.

3

Reserve hands off to /properties/:slug

The standard booking flow with Razorpay payment and digital agreement signing.

%T TIP

Hotel properties are managed under Admin! Add Property with category set to 'hotel' so that management tools apply.

PART SIX

Public & Student-Facing Flows

Reference guide for the public registration form, virtual property tour, bed booking, payment gateway, and agreement signing as experienced by students.

All Roles

6.1 Public Registration Form (/apply)

The /apply page is a shareable pre-registration form for prospective students. It does not require a student to create an account. The student fills in personal details, college, preferred room type, and submits.

After submission:

- A registration entry appears in Admin!' Registrations
- An acknowledgement email is sent to the student
- Frontdesk or Admin reviews and approves or rejects the application

TIP

Share the /apply link on social media, WhatsApp, or email campaigns. It is public and mobile-friendly.

6.2 Virtual Property Tour

Prospective students can take a self-guided tour of a property at /properties/:slug. The tour includes:

- Photo gallery of each floor and room type
- Interactive floor plan showing bed availability (colour-coded: available / occupied)
- 3D Virtual Tour button (if a 360° tour has been configured in Admin!' 3D Virt

6.3 Bed Booking — Floor!' Room!' Bed Selection

After browsing properties, students select a specific bed through a three-level hierarchy:

1

Choose Floor

Select from available floors. Floors with gender restrictions show the restriction label.

2

Choose Room

Select a room section. Occupied or reserved beds are shown in grey.

3

Choose Bed

Click an available (green) bed to select it. Duplicate booking prevention is enforced server-side.

4

Proceed to Booking

Click Book Now to start the booking flow with the chosen bed pre-selected.

WARNING

A bed is not reserved until the booking is completed and payment is made. Two students selecting the same bed simultaneously are handled by server-side conflict detection — the first to complete payment wins.

6.4 Payment Gateway (Razorpay)

Hsquareliving uses Razorpay for online payments. Supported methods:

- UPI (Google Pay, PhonePe, Paytm, BHIM, etc.)
- Debit Card / Credit Card
- Net Banking
- Razorpay Wallet

After payment success, the student is redirected to the confirmation page and receives a payment receipt email.

%T NOTE

Failed payments do not create a booking. The student can retry the payment. Contact Admin if a payment was deducted but the booking was not confirmed.

6.5 Digital Agreement Signing

After payment, the student is prompted to review and sign the tenancy agreement. The flow:

1

Review Agreement

The auto-generated agreement is displayed with all booking details pre-filled.

2

Sign

The student draws their signature using the on-screen signature pad (touchscreen or mouse).

3

Submit

The signed agreement is stored and is available for download by both the student and Admin.

%T TIP

If a student is signing on a mobile device, the signature pad works with touch input. Landscape mode gives more room for the signature.

Admins can view and download the signed agreement from the Agreement section of the booking detail panel in All Bookings.

Quick Reference

Key URLs

/apply	Public Registration Form

Common Troubleshooting

Booking not visible in All Bookings

Check that the correct property is selected in the navbar dropdown. The booking may be under a different property.

Payment dialog Confirm button not reachable on iPad

Tap the Amount field — the button scrolls into view automatically. Alternatively, scroll down inside the dialog.

Stat card amounts showing as ₹10.28L etc.

This is the compact Indian number format (Lakh/Crore). Hover over the card to see the full amount. This is by design to prevent truncation on smaller screens.

HMS Health shows red status

The external HMS API is unreachable. Contact the system administrator. Do not manually create duplicate records — wait for sync to resume.

'Switch to Hotels' pill not visible

The Hotels Module is disabled. A Superadmin must enable it in Admin! Settings! General.

Can't approve registrations (button greyed out)

Your account needs Approval Access enabled. Ask your Admin to go to Admin! Sales and toggle Approval Access for your account.

NOTE

For technical support, contact your Superadmin or email support@hsquare.in. Include a screenshot and the exact URL where the issue occurred.
